Low-code LaunchPad

Jump-start your low-code development journey to address urgent challenges now on a platform ready for your future needs

Liberty Create offers your team the powerful tools they need to build new apps and deliver better customer experiences.

Create allows apps to be built:

- **Faster** up to 10 x faster than using traditional methods.
- **Easier** using a simple drag-and-drop UI that opens up access to create powerful web and mobile apps. And you won't need to hire expensive and scarce development resources.
- **By business and IT** designed for business users with extensive tools for pro developers too. Create offers a true collaboration platform for business and IT.
- **On a platform for growth** quickly add additional apps on the platform. Think big, start small and build on the successes of your early apps.

Introducing the Low-code LaunchPad

To speed up the time-to-first-app even further, this starter pack for Create brings together everything you need to accelerate your low-code journey and get your first app built in record time.

Why spend time on a lengthy proof-of-concept when you can use your time to build your first application instead?

What's included in the LaunchPad?

- **Software Licence** for up to 50 users and 1,000 logins per month for a 3 month period
- **Training** full online training for up to 5 people to give them the skills to build the first apps on the platform
- **Mentoring** 3 days with our professional services team including review meetings
- **Community** ongoing support and resources available through the Netcall Community
- **AppShare** access to development resources including samples and accelerators designed to help build your apps more quickly. These include:
  - Skills Matrix
  - Emergency Alerts
  - Online Surveys
  - Visit Booking
  - Who's On.

Read more on the AppShare here.

"We can definitely say we've seen time and cost savings by using low-code to solve business challenges."
